

KESHAV BANSAL

ANALYTICS & MODELING MANAGER | BUSINESS INTELLIGENCE | REPORTING & DATA ANALYTICS

Delhi, India | +91 9891090514 | kb1820@gmail.com | linkedin.com/in/keshavbansal1995 | github.com/keshavbansal123/

PROFESSIONAL SUMMARY

Data & Analytics professional with 9+ years of experience delivering business intelligence, reporting, data analytics, automation and AI solutions for global clients. Experienced in providing data-driven insights to business and leadership stakeholders, developing dashboards and scorecards, managing reporting operations, and translating complex business requirements into actionable recommendations. Strong expertise in Power BI, Tableau, SQL, Advanced Excel, VBA, SSRS, Python and data visualization, with proven experience in project delivery, stakeholder engagement, data quality, production management, team leadership and continuous improvement. Led initiatives that improved reporting efficiency by 40%+, reduced manual effort by 60%, and migrated 100+ manual Excel processes into automated dashboards and reporting workflows.

CORE SKILLS

Business Intelligence & Reporting: Power BI, Tableau, SSRS, Advanced Excel, KPI Dashboards, Scorecards, Leadership Reporting, Management Reporting, Data Visualization, Business Insights

Analytics & Data: SQL, Data Analysis, Data Modeling, Data Validation, Data Quality, ETL, Data Warehousing, Trend Analysis, Root Cause Analysis, Actionable Insights

Automation & Programming: Python, SQL, VBA, C++

Planning & Delivery: Project Management, Program Delivery, Requirement Gathering, Deliverable Tracking, Issue & Risk Management, Production Management, Quality Reviews, Continuous Improvement

Stakeholder & People Management: Stakeholder Engagement, Business Partnering, Cross-functional Collaboration, Team Leadership, Coaching, Mentoring, Work Management, Presentation

AI & Modern Analytics: Generative AI, LLMs, LangChain, RAG, Machine Learning, NLP, Vector Databases

Cloud & Tools: Google Cloud, BigQuery, GCS, AWS, Databricks, Git, Bitbucket, Jenkins, JIRA, Figma

PROFESSIONAL EXPERIENCE

Lead Assistant Manager – Analytics | EXL Service Limited | Gurugram | 06/2021 – Present

- Lead enterprise analytics, business intelligence, reporting and Generative AI initiatives for global clients, translating business requirements into scalable analytical solutions and leadership-ready reporting.
- Partner with senior stakeholders to define KPIs, reporting requirements, analytical priorities and transformation roadmaps, providing data-driven insights to support business decisions.
- Own delivery of dashboards, analytical models and reporting workflows, coordinating requirements, deliverables, timelines, quality reviews and issue resolution across cross-functional teams.
- Migrated 100+ manual Excel-based processes into automated dashboards and reporting solutions, improving reporting efficiency by 40%+ and strengthening reporting consistency.
- Built and optimized SQL/Python data pipelines and analytical models, improving data reliability, performance, scalability and data quality.
- Designed Power BI and analytical reporting solutions that convert complex datasets into clear KPI views and actionable business insights for stakeholders.
- Implemented SQL code versioning and data lineage tracking using Bitbucket and Jenkins, improving traceability, governance and production control.
- Designed and deployed LLM-based applications using LangChain, RAG and vector databases, reducing manual effort by 60% across targeted workflows.
- Managed, coached and mentored cross-functional teams, prioritizing multiple requests and supporting delivery against business and stakeholder requirements.

Consultant | Aurionpro Solutions Limited | Delhi | 03/2020 – 06/2021

- Delivered end-to-end business intelligence, reporting and data analytics solutions across client engagements, reducing reporting time by 50%.
- Developed dashboards, reporting systems and analytical data pipelines using Power BI, Tableau, SQL and Python to support management reporting and business performance analysis.
- Performed data reconciliation and validation across 100+ fields using Python automation, improving data accuracy and reducing manual effort.
- Worked with stakeholders on requirement gathering, analytical solution design, dashboard development, quality validation and delivery tracking.
- Designed dashboard wireframes using Figma to align business requirements, user expectations and development teams.

Data Analyst | Den Networks Limited | Delhi | 09/2018 – 03/2020

- Developed and optimized complex SQL queries, joins and stored procedures for large-scale reporting, operational analytics and business performance analysis.
- Built interactive Power BI dashboards and DAX-based KPI views for revenue, churn and collections, enabling leadership to monitor business performance and trends.
- Performed data modeling and transformation in Power BI, improving reporting performance, usability and accessibility.
- Conducted churn, billing and revenue analysis, data validation and reporting automation to identify business trends, discrepancies and improvement opportunities.
- Collaborated with stakeholders to translate operational requirements into structured reporting and analytical solutions.

Senior Associate | Wipro Limited | Noida | 11/2016 – 09/2018

- Automated end-to-end reporting workflows using SQL and VBA, reducing manual effort and improving reporting turnaround time.
- Developed and optimized SQL queries and transformations for large-scale reporting and recurring management information requirements.
- Built reusable VBA tools for data extraction, validation and report generation across multiple datasets.
- Implemented data quality checks and validation frameworks to improve accuracy, consistency and timeliness of reporting outputs.
- Collaborated with stakeholders to convert business requirements into structured reporting solutions and ETL processes.

LEADERSHIP HIGHLIGHTS

- Led analytics and AI initiatives for Fortune 500 clients, delivering scalable, high-impact business solutions.
- Transitioned 100+ manual processes into automated data pipelines, dashboards and reporting workflows.
- Managed cross-functional analytics teams and multiple enterprise-scale data projects.
- Mentored and trained 200+ professionals in Data Analytics and AI, supporting team capability development.
- Introduced Generative AI solutions to improve operational efficiency and reduce manual effort.

CERTIFICATIONS

- Google Cloud Certified – Generative AI Leader
- Databricks Certified – Generative AI Engineer Associate
- Databricks Certified – Machine Learning Associate
- AWS Certified Cloud Practitioner
- Lean Six Sigma Green Belt
- Nasscom – Python Fundamentals & Programming

EDUCATION

- MCA – IGNOU | 2016 – 2020 | Delhi
- B.Sc. – Deshbandhu College, Delhi University | 2012 – 2015 | Delhi
